DIAGNOSTIC MICROBIOLOGY
AND
INFECTIOUS DISEASE

Volume 16 (1993) Contents

NUMBER 1, JANUARY

Bacteriology

Application of a Biotyping System and DNA Restriction Fragment Analysis to the Study of *Serratia marcescens* from Hospitalized Patients 1
Martha Bale, Melissa Sanford, Richard Hollis, and Michael A. Pfaller

Molecular Epidemiology and Antimicrobial Susceptibility Testing: Testing of Quinolone-Resistant *Staphylococcus aureus* Strains Isolated in Brazil 9
Jorge N. Rodrigues, José L.G. Amaral, Ivani L. Leme, Antonio Pignatari, Sergio Wey, Richard Hollis, Michael A. Pfaller, and Ronald N. Jones

Performance of a Fluorescence Polarization Immunoassay for Teicoplanin in Serum 17
Stephen H. Mastin, Robert L. Buck, and Paul A. Mueggler

Increased Frequency of Large R-Plasmids in *Klebsiella pneumoniae* Colonizing Patients with Spinal Cord Injury 25
John Z. Montgomerie, Joseph F. John, Loretta M. Atkins, Donna S. Gilmore, and Mary A. Ashley

Recovery of Clinically Important Microorganisms from the BacT/Alert Blood Culture System Does Not Require Testing for Seven Days 31
Michael L. Wilson, Stanley Mirrett, L. Barth Reller, Melvin P. Weinstein, and Larry G. Reimer

Plasmid DNA Analysis, Biotyping, and Antimicrobic Susceptibility as Subtyping Tests for *Klebsiella pneumoniae* and *Klebsiella oxytoca* 35
Alan I. Hartstein, Virginia H. Morthland, J. William Rourke, Renee Sykes, and Abdel L. Rashad

Identification of Species-Specific, Non-Cross-Reactive Proteins of *Borrelia burgdorferi* 43
Sousan Sayahtaheri-Altaie, Frederick A. Meier, and Harry P. Dalton

Mycology

Value of the Hybritech ICON *Candida* Assay in the Diagnosis of Invasive Candidiasis in High-Risk Patients **53**

Michael A. Pfaller, Ignacio Cabezudo, Barry Buschelman, Martha Bale, Timothy Howe, Melinda Vitug, Harry J. Linton, and Mark Densel

Virology

Comparison of Shell Viral Culture and the Suspension–Infection Method for the Rapid Detection of Herpes Simplex Viruses **61**

F. Brent Johnson, Gerri Luker, and Connie Chow

Case Report

Tuberculosis Fasciitis and Tenosynovitis: An Unusual Presentation of Miliary Tuberculosis **67**

Amin M. Kabani, Joseph D.C. Yao, Inderman H. Jadusingh, and B. Craig Lee

Notes

A Simple Method to Prepare *Salmonella* (A-E) Polyvalent Antiserum **73**

G. Sridharan, Mary V. Jesudason, M. Santhosh, and T.J. John

Enzyme-Linked Immunosorbent Assay for Rapid Measurement of Serum-Neutralizing Activity Against Human Cytomegalovirus **75**

Gerard P. Rabalais, Sharon Waldeyer, Karen Cost, and Gary S. Marshall

Faster Isolation of *Brucella* spp. from Blood by Isolator Compared with BACTEC NR **79**

Enrique Navas, Antonio Guerrero, Javier Cobo, and Elena Loza

In vitro Activity of Nine Fluoroquinolone Antibiotics Against 200 Strains of Enterococci **83**

Patrick R. Murray, Jacqueline L. Bratcher, Ann C. Niles, and Cecil M. Hampton

Evaluation of a New Monoclonal Antibody Reagent for the Detection of Herpes Simplex Virus from Clinical Specimens **87**

Sheryl L.G. Johnston

Comparison of Streptex versus PathoDx for Group D Typing of Vancomycin-Resistant *Enterococcus* **89**

Allan L. Truant and Vilas Satishchandran

NUMBER 2, FEBRUARY

Bacteriology

A Comparison of the API Uriscreen with the Vitek Urine Identification-3 and the Leukocyte Esterase or Nitrite Strip as a Screening Test for Bacteriuria **93**

Maurice T. Dalton, Sharon Comeau, Brenda Rainnie, Karen Lambert, and Kevin R. Forward

Use of Chemiluminescent DNA Probes in the Rapid Detection of Oxacillin Resistance in Clinically Isolated Strains of *Staphylococcus aureus* **99**
Gary R. Youmans, Thomas E. Davis, and DeAnna D. Fuller

Virology

Evaluation of Abbott TestPack RSV for the Diagnosis of Respiratory Syncytial Virus Infections **105**
Margaret A. Olsen, Kathleen M. Shuck, and Anthony R. Sambol

Antimicrobial Susceptibility Studies

Antimicrobial Activity and Spectrum of Rifaximin, a New Topical Rifamycin Derivative **111**
William W. Hoover, E. Hugh Gerlach, Daryl J. Hoban, George M. Eliopoulos, Michael A. Pfaller, and Ronald N. Jones

Species Identification and Determination of High-Level Aminoglycoside Resistance Among Enterococci: Comparison Study of Sterile Body Fluid Isolates, 1985–1991 **119**
Barry J. Buschelman, Martha J. Bale, and Ronald N. Jones

Clincal Studies

Comparison of Oral Cefpodoxime Proxetil and Cefaclor in the Treatment of Skin and Soft Tissue Infections **123**
Dennis L. Stevens, Francis Pien, and Margaret Drehobl

Case Report

Endovascular Infection and Septic Arthritis Caused by *Gemella morbillorum* **131**
Yasser Omran and Craig A. Wood

Notes

In vitro Activity of Rifaximin, a Topical Rifamycin Derivative, Against *Chlamydia trachomatis* **135**
Errol S. Prasad and Wanda M. Wenman

Increased Resistance to Quinolone in Catalonia, Spain **137**
Beatriz Mirelis, Elisenda Miro, Ferran Navarro, Carles A. Ogalla, Joaquin Bonal, and Guillermo Prats

Impact of Intervention on the Frequency with Which Leaky Urine Specimens Are Received in the Laboratory **141**
Gary V. Doern and Raymond Vautour

Prevalence of Enterococcal High-Level Aminoglycoside Resistance in Japan: Comparative Detection by Three Methods **145**
Yoke-Fong Chiew, Masakazu Tosaka, and Nobuhisa Yamane

Book Review

Infectious Diseases Text and Color Atlas (W.E. Farrar, M.J. Wood, J.A. Innes, and H. Tubbs, eds.) **149**
Reviewed by Albert Balows

Critical Assessment of the Role of Molecular Techniques Now and in the Future in Clinical Microbiology (ASM, 1992)

Introduction 151
James H. Jorgensen and Patrick R. Murray

Molecular Technology for Hospital Epidemiology 153
J. Michael Miller

Diagnostic Molecular Microbiology: Current Challenges and Future Directions 159
David H. Persing

Use of Probes and Amplification Techniques for the Diagnosis and Prognosis of Human Immunodeficiency Virus (HIV-1) Infections 165
Max Arens

Use of Molecular Diagnostics in Sexually Transmitted Diseases: Critical Assessment 173
Kimberle Chapin-Robertson

NUMBER 3, MARCH/APRIL

Bacteriology

Effect of Antibiotics on Endotoxin Release from Gram-Negative Bacteria 185
Robert H.K. Eng, Sharon M. Smith, Patty Fan-Havard, and Tajudeen Ogbara

Antimicrobial Susceptibility Studies

Multilaboratory Evaluation of the in vitro Activity of 13 β-Lactam Antibiotics Against 1474 Clinical Isolates of Aerobic and Anaerobic Bacteria 191
Patrick R. Murray, Ronald N. Jones, Stephen D. Allen, Meredith E. Erwin, Peter C. Fuchs, and E. Hugh Gerlach

Occurrence of Macrolide–Lincosamide–Streptogramin Resistances Among Staphylococcal Clinical Isolates at a University Medical Center: Is False Susceptibility to New Macrolides and Clindamycin a Contemporary Clinical and in vitro Testing Problem? 205
Martha L. Sanchez, Kristine K. Flint, and Ronald N. Jones

Clinical Studies

Drug Intolerance to High-Dose Clarithromycin Among Elderly Patients 215
Richard J. Wallace, Jr., Barbara A. Brown, and David E. Griffith

Note

RP 59500, a New Streptogramin Highly Active Against Recent Isolates of North American Staphylococci 223
Gordon L. Archer, Pierre Auger, Gary V. Doern, Mary Jane Ferraro, Peter C. Fuchs, James H. Jorgensen, Donald E. Low, Patrick R. Murray, L. Barth Reller, Charles W. Stratton, Christine B. Wennersten, and Robert C. Moellering, Jr.

The Role of the Clinical Microbiology Laboratory and the Clinical Pharmacy in the Management of Infectious Disease (ASM, 1992)

Introduction **227**
Gary V. Doern

Qualitative Susceptibility Tests versus Quantitative MIC Tests **231**
William A. Craig

The Impact of Same-Day Tests versus Traditional Overnight Testing **237**
Paul A. Granato

Selection of Antimicrobial Agents for Routine Testing in a Clinical Microbiology Laboratory **245**
James H. Jorgensen

Effective Reporting of Susceptibility Test Results **251**
Susan E. Sharp

Changes in Antimicrobial Agent Usage Resulting from Interactions Among Clinical Pharmacy, the Infectious Disease Division, and the Microbiology Laboratory **255**
Jerome J. Schentag, Charles H. Ballow, Albert L. Fritz, Joseph A. Paladino, Jeffrey D. Williams, Thomas J. Cumbo, Russell V. Ali, Vincent A. Galletta, Marcia B. Gutfeld, and Martin H. Adelman

Formulary Control of Antimicrobial Usage: What Price Freedom? **265**
William Claiborne Dunagan and Gerald Medoff

Conclusions **275**
Mary Jane Ferraro

NUMBER 4, MAY/JUNE

Bacteriology

Effect of Low Concentrations of Quinolone Antibiotics on Bacterial Virulence Mechanisms **277**
Stephen A. Sonstein and Jeffrey C. Burnham

Development of a Serologic Panel for the Recognition of Nocardial Infections in a Murine Model **291**
Judith A. Kjelstrom and Blaine L. Beaman

Medical Technologists Using Molecular Epidemiology as Part of the Infection Control Team **303**
Lance R. Peterson, Robert A. Petzel, Connie R. Clabots, Claudine E. Fasching, and Dale N. Gerding

Fecal Leukocytes in Stool Specimens Submitted for *Clostridium difficile* Toxin Assay **313**
Christine E. Marx, Arthur Morris, Michael L. Wilson, and L. Barth Reller

Evaluation of QuickVue, a Rapid Enzyme Immunoassay Test for the Detection of Serum Antibodies to *Helicobacter pylori* **317**
T. Ulf Westblom, L. Martin Lagging, Bentley R. Midkiff, and Steven J. Czinn

Mycobacteriology

Bacteriologic Investigations of Unusual Mycobacteria Isolated from Immunocompromised Patients 321

Salman H. Siddiqi, Adalbert Laszlo, W. Ray Butler, and James O. Kilburn

Virology

Performance of the Kallestad Pathfinder Enzyme Immunoassay in the Diagnosis of Respiratory Syncytial Virus Infections 325

Margaret A. Olsen, Kathleen M. Shuck, Anthony R. Sambol, Virginia A. Bohnert, and Mary L. Henery

Comparative Performance of Peptide-, Recombinant Protein-, and Viral Lysate-Based Enzyme Immunosorbent Assays for the Detection of HIV-1 Antibodies 331

Brigitte P. Griffith and Thomas M. Chacko

Parasitology

Evaluation of an Enzyme-Linked Immunosorbent Assay for the Detection of *Giardia lamblia* in Stool Specimens 337

Jon E. Rosenblatt, Lynne M. Sloan, and Susan K. Schneider

Antimicrobial Susceptibility Studies

Synergy Assessed by Checkerboard: A Critical Analysis 343

Michael H. Hsieh, Chen M. Yu, Victor L. Yu, and Joseph W. Chow
